To Whom It May Concern:

On behalf of CareSTL Health it is an honor to present this letter of recommendation for BC Construction Company.

As the general contractor for a 10-month, 3-phase renovation of our main health center, BC Construction went above and beyond to exceed all our expectations. A complicated project made more difficult by the fact that the clinic remained open throughout, BC was presented with complications and changes on an almost weekly basis. Their endless patience and creativity not only kept the project on schedule but on budget as well.

The key to the success of our project was the highly experienced personnel and sub contractors BC devoted to the renovation. Chris Haase managed the scheduling, changes, billing and cost-savings with great skill and expediency. Mike Capkovic was truthfully the finest superintendant I've ever worked with in 25 years. Every sub contractor was professional, highly skilled and truly invested in giving us great value for our investment.

As a non profit we feel very lucky to have had such caring, professional people helping us achieve our vision of providing affordable, compassionate care to a challenged community. The project could have easily gone over on both budget and schedule, if not for the considerable efforts of BC Construction. I heartily recommend their services to others, and look forward to working with them in the future.

Sincerely,

A handwritten signature in black ink that reads "Michael Estwanick".

Michael Estwanick
Director of Facilities
